EXPERIENCE

TÊDÊCAR AUTOCARAVANAS LTD FRONT-END DEVELOPER ASSISTANT

April 2018 – November 2018, PORTUGAL

Responsibilities:

The role at this company was to develop a Vue application that served as the frontend for an existing set of APIs that are connected to the company's CRM/order system.

My responsibilities included:

- * Set up a new Vue project, including source control.
- * Migrate old Windows forms to web forms.
- * Connect all the forms to the right APIs.
- * Modernize the overall look of the application, made it simpler to use, and removed fields that were no longer used or needed to be changed.
